TravelMate 270-Series

Your All-In-One Advantage >>

The TravelMate 270 series has been especially designed for the outbound professional user, either self employed or or working in, small medium and large corporations, looking for a powerful work tool that integrates multimedia, communication and performance features required to meet the challenges of today's business-critical applications.

Independent Power

To handle today's demanding business applications, ranging from substantial worksheets to resource demanding mainframe/client front end applications and from host emulations and multimedia applications to on-hand multi-tasking, the TravelMate 270 offers the power of Mobile Intel® Pentium® 4 Processor - M, ample memory headroom and a range of professional operating systems. These and other innovations ensure flexibility, superior work efficiency, fast result turnaround times and hassle-free use by eliminating unwelcome interruptions and excessive loading times.
Intel's Enhanced Speedstep™ technology, in combination with Acer's advanced power management, ensures minimal power consumption and efficient use of the Lithium-Ion battery, thereby maximizing mobility and power-independence while on the move.

Keeping Up with a Highly-Mobile World

High-quality audio and video, real-time access to Internet and office network, simple system set-up and installation as well as hassle-free management of cables, storage devices and other accessories. These are the comprising needs of mobile professionals who need to keep up with today's fast-moving business world.

The Integrated Solution with Full Multimedia Functionality

The TravelMate 270, with its all-in-one design, integrates the power and the latest innovations in connectivity to ensure that executives and professionals maintain a high level of performance and productivity, even and especially when undertaking outbound work. Especially designed for demanding multimedia applications, this notebook PC is the excellent solution for highly-graphics presentations and audio-visual shows.

All-in-one Advantage

The compact chassis of the TravelMate 270, which incorporates all storage media types, allows the simultaneous use of FDD, HDD and other optical drives without the inconvenience of having to handle external devices, cables and connectors. It also eliminates the risk of losing vital system accessories while on the move. The integration of optical and storage drives – in combination with the flexible Ethernet LAN connection – is Acer's response to demands of many medium and large corporations for easy preload set-up, updates and OS or application migration from a central master server.

Connect and Communicate Wherever You Are

Be it in the office or working from home, the TravelMate 270 allows continued productivity thanks to the integrated Ethernet card giving fast access to the local area network as well as other office data, applications and services. The Ethernet card also facilitates high-speed ADSL connections to other web-based infrastructures and services, providing the unlimited resources and fast response times. A built-in fax/ modem, which is standard in all TravelMate notebooks, allows you to communicate and stay in touch with the latest developments via e-mail, the Internet and the Remote Access Server.
